## Do you need:

- Minimal Size, Weight and Power
  Rugged Capability
  Server Class Performance
  Modularity

for your next Military & Aerospace application?

# Rugged Server Solutions within Size, Weight & Power constraints:

Modular Enhanced Security Built-In-Test

#### **Features**

Based on widely used open standards to minimise risk Scalable and granular Optimised for low power consumption Designed for very long life-cycles Designed for extreme operating environments

#### **Typical Applications**

Edge Server
Media Transcoding
Image Analysis
Video encoding
Encryption/Decryption
Signals Analysis
Storage Server
Simulation

## Virtualized Edge Server

Suitable for use with VmWare vSphere 6.0 ESXi, Microsoft HyperV or Nutanix virtualized environments. Designed for use in air and conduction-cooled environments outside the scope for traditional rack mount servers

#### **Server Modules**

- Up to 16 Intel<sup>®</sup> Xeon<sup>®</sup> cores
- 32GB DDR4
- 10G and 1G Ethernet
- PCIe Gen 3 for expansion
- Local SATA storage
- Operation from -40°C to +85°C
- Linux or Windows support

#### **Typical Box Configuration**

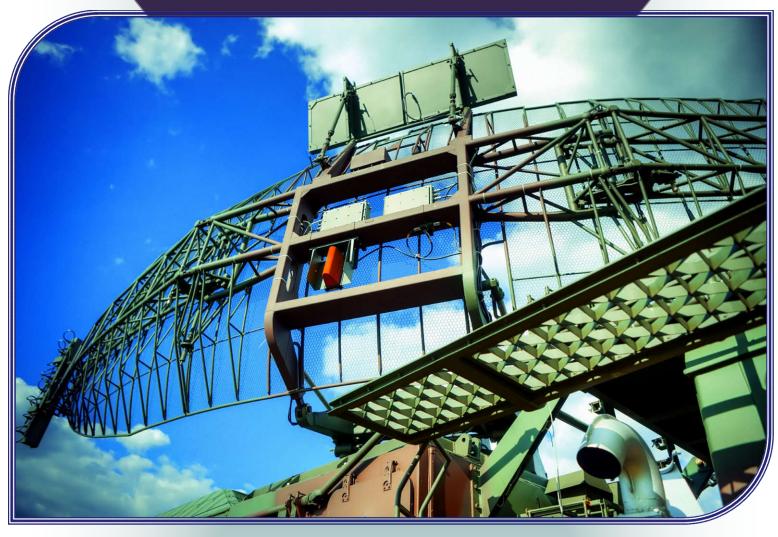

- Up to 6 Intel<sup>®</sup> Xeon<sup>®</sup> server modules providing 192GB DDR4
- Power consumption ~400W
- 329 x 483 x 198 mm volume
- Virtualization Ready
- 10G Ethernet interconnects
